VIDEO COLLABORATION FOR ANY WORKSPACE

EVERYTHING YOU NEED

The modern workplace is all about collaboration. Logitech's advanced video conferencing solutions let your teams talk, share files and screens, and whiteboard ideas. Make your meetings seamless, productive, and fun.

COMFORTABLE AND FAMILIAR

Logitech partners with all the most popular video conferencing platforms, including Microsoft Teams, Zoom, Google Meet, and more.

Our focus on designing high performance products that are simple to use, deploy, and manage enables you to keep your hard-working teams stay connected and productive.

RALLY BAR AND RALLY BAR MINI

All-in-one video bars upgrade the meeting experience with cinema-quality video, outstanding color, and exceptional optical accuracy. Connect via USB to virtually any PC or Mac with no additional software needed.

ZONE HEADSETS

Wireless Bluetooth® and wired headsets designed to control your acoustic environment and block out distractions.

RALLY PLUS AND RALLY CAMERA

Modular design, studio-quality video, and unmatched audio combined with RightSense™ proactive technologies for frictionless meetings. Leverage up to 7 modular microphones to seamlessly extend video into larger meeting spaces.

BRIO 4K WEBCAM

Packed with features for stunning video in any environment. Choose from three field of view settings for a perfectly framed video.

LOGITECH TAP

Touch controller pre-configured for Google Meet, Microsoft Teams, or Zoom. Offers one-touch join and always-on readiness.

SWYTCH

Logitech Swytch connects a laptop to the room's display, camera, and audio so you can leverage any cloud video, webinar, or streaming service in the meeting room.

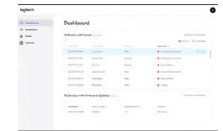

SCRIBE

Effortlessly share whiteboards into video meetings with Logitech Scribe, an AI-powered whiteboard camera for Microsoft Teams® Rooms, Zoom Rooms™, and other leading video conferencing services.

MEETUP

Multiple HD resolutions up to Ultra 4K. Super-wide field of view and integrated microphone allows everyone to be seen and heard. RightSense™ technology enabled.

LOGITECH SYNC

Secure, cloud-based monitoring and management of video collaboration devices. Deploy at scale for streamlined on-boarding and automated updates. Includes detailed meeting room occupancy reporting.
